15 Guiding Principles of Patents for Enterprises

1. Patents are the Badges of Honor for Engineers.
2. Patents are Valuable Assets for Corporations.
3. Patents are the Hallmarks of One-of-a-Kind Enterprises.
4. Patents are Indispensable Tools for Global Companies.
5. Patent Strategies Must Be in Perfect Harmony with Business and R&D Strategies.
6. Patent Specifications are Powerful Media for Technology Succession.
7. Patent Documents are Treasure Troves of Innovation.
8. Effective Rights Acquisition Begins with Thorough Patent Searches.
9. Without Patent Filings, There are No Rights—And No Future.
10. An Inventor's Sole Judgment Cannot Determine Patentability.
11. Notifications from Patent Offices Serve as Compasses for R&D.
12. Patent Examiners are Engineers, Just Like Inventors.
13. Patents are the Strongholds for Sustaining and Expanding Business.
14. Patent Disputes are Won or Lost Based on Patent Ownership.
15. Patent Disputes Should Be Resolved with a Comprehensive Perspective.
